

RBS

Nominated for a
STUPID
award!

**Our Bank:
Our Future!
Vote for
a Cleaner
RBS**

RBS-NatWest, now 70% owned by the UK Government, are **bank rolling the root causes of climate change** as one of the UK's largest investors in oil, coal and gas projects. Can we really argue for a good global climate deal at Copenhagen when a publicly owned bank has **embedded carbon emissions greater than the whole of Scotland's?**

Take Action: RBS AGM Fri 3 April 09

Edinburgh: come and give RBS a spring clean – feather dusters and marigolds a must!
EICC, Morrison St. 12.30pm

London: get out the yuppy suits and banker's bowler hats!
RBS HQ, 280 Bishopsgate. 12.00 noon
